## TRAP and SKEET

## A. Competition format

1) The competition will be conducted in the form of individual duels between the members of each opponent team and mixed team duels in case of ties.
2) The League will be conducted in 2 stages. The Semifinal and the Final stage (Medal Matches).
3) The mixed team point system competition format (European Games 2023 formats) will be used, in all stages (Semifinal and Final), individual or mixed team duels, as below:
4) In Trap each athlete/mixed team will compete in a maximum of 5 series each composed of 5 -target sequences (maximum $5 \mathrm{X} 5=25$ targets). After each 5 -target sequence the highest result will get 2 points and the lower result 0 points. Equal scores will give 1 point to each opponent. The first individual athlete/mixed team to reach 6 points will be the winner. Ties will be decided by shoot-offs as per existing Rules (shoot-offs after Finals). For details see the specific rules for Trap Mixed Team competitions (European Games 2023 formats). Note: In the individual duels the sequence of the five targets of each series, for each athlete, will be 2 left, 2 right and 1 center target, randomly selected from any station.
5) In Skeet each athlete/mixed team will compete in sequences of 4 targets (2 doubles - 1 normal, 1 reverse) starting from station 3 then $4,5,3, \& 4$ ( 5 stations, maximum $5 \mathrm{X} 4=20$ targets). After each station the highest result will get 2 points and the lower result 0 points. Equal scores will give 1 point to each opponent. The first individual athlete/mixed team to reach 6 points will be the winner. Ties will be decided by shoot-offs as per existing Rules (shoot- offs after Finals). For details see the specific rules for Skeet Mixed Team competitions (European Games 2023 formats).
6) In the Semifinal stage the opponent teams (the 2 teams in each duel) will be decided by their original European Team ranking which gave them the qualification (1st, $2 \mathrm{nd}, 3 \mathrm{rd}$, or 4th place). The members of the team in 1st place will compete against the members of the team in 4th place (or the host nation) and the team in 2nd place will compete against the team in 3rd place (see section D below).
7) In the Semifinal stage, the coaches/team officials will be responsible to allocate the Bib numbers to the selected athletes of their team. The Bib numbers, in each event, must bear the original ranking (as per EU Team ranking) of each team (1, 2, 3 or 4), the nation abbreviation (AND, MDA, ISR, LUX etc.) and the number (shooting order) of the athlete (1 or 2). In case of the inclusion of the host nation team (not selected by ranking) this team will receive ranking 4.
Example of Bib number: $1 \mathrm{AND}_{1}, 1 \mathrm{AND}_{2}-2 \mathrm{MDA}_{1}, 2 \mathrm{MDA}_{2}-3 \mathrm{ISR}_{1}, 3 \mathrm{ISR}_{2}$ etc.
8) The members of the winning teams in 1 st and 2 nd place will participate in the Gold Medal Match and the losing teams in the 3rd and 4th places will compete in the Bronze Medal Match (see section F below).
9) In the Medal Match stage, the order of shooting of the opponent teams/athletes of each Medal Match (which team/athlete will shoot first and which will shoot second) will be decided by the Semifinal results.
10) In the Semifinal/Medal Match stages there will be a total of 4 individual duels between each of the 2 opponent teams. 2 duels in the Men's and 2 duels in the Women's category. The duels will start with the Men's category with the athletes with Bib 1 (M1), followed by the Women's category W1, followed by the Men's category with the athletes with Bib 2 (M2) and last the Women's category W2. The Trap event duels will be conducted first, followed by the Skeet duels.
11) In the Semifinal/Medal Match stages the winning athlete of each individual duel will receive 1 point for his national team and the loser 0 points. The national team to win first 3 points (out of the 4 duels) is the winner. It is understood that when after the first 3 duels one national team reaches 3 points then the $4^{\text {th }}$ duel will not be conducted.
12) If at the end of the Semifinal/Medal Match stages the 2 teams have an equal score of 2:2 points, then the winning team will be decided after a Mixed Team Match duel between 2 opponent Mixed teams the members of which ( 1 man, 1 woman) will be nominated by the coach/team official of each team and the selected athletes must use the national team's Bib number $1 \& 2$.
