

PROCESS OF LOGIN ON THE WEBSITE

First, you should have received an email with a link to the website to set your password. If you haven't received an email, go to the website:

<https://escaircup.eu/> and click on "Login" in the list above.

Choose "Forgot my password" and submit the email that you have registered for your club administrator. An automated email with the above link should come to that email address.

After that set your password, retype the password and submit it to the website.

Then you should be able to login on the website with your email and your newly set password.
